NEW YARIS DROP

WHATEVER YOUR VIBE IS

You DO you

QUALITY | DURABILITY | RELIABILITY

WHATEVER YOUR VIBE IS *You DO You*

People will always have opinions. About your clothes, your playlist, your vibe. Let them. Do what you love, go at your own pace, and make your own kind of progress. The New Yaris lets You Do You with one less thing to overthink, so you can follow your vibe wherever it takes you.

OUR POV

ADVANCED AND Sporty Design

Main character energy, built in. From the flowing character lines to the wrap-around combination lamps - this one just hits.

NEW

LED Projector Headlamps with Daytime Running Lights

The LED projector headlamps are accentuated by the Daytime Running Lights to brighten up your drive.

NEW

16-Inch Alloy Rims

The 16-inch alloy wheels bring turbine energy - black spokes, bright finish, and an aggressive look that fills the arch just right. Details that go hard from every angle.

Auto-Fold Mirrors

Mirror anxiety is officially cancelled. Fold your mirrors in for extra peace of mind in tight parking spaces.

NEW

Aerokit Styling

No wasted lines. The 'advanced' design concept runs continuously from the lower bumper all the way to the rear, with sharp headlamps and a catamaran-inspired front that just makes sense.

Optional accessory.

EXTERIOR

2-Tone Black Roof, Wing Mirrors, Shark-Fin Antenna, and Rear Spoiler

Pitch-black aesthetics around the New Yaris enhance its mystique, creating a striking first impression.

Optional add-on.

NEW

Rear LED Lightbar

Stretches across the rear for a wider, more striking look, giving everyone something to look at even as you drive away - especially at night.

NEW

Rear Bumper

Designed to be recognised from behind too. The rear diffuser's matte trim with a carbon-fibre pattern adds a premium touch, while slim horizontal lamps and black garnish keep the stance low and wide.

NEW

Front Hammerhead Design

The new hammerhead design gives a distinctive dual-grille setup for a more aggressive yet refined look.

NEW

Front Fog Lamp Bezel

The slit-shaped fog lamp bezels aren't just functional - they give the bumper a 3D edge that makes the whole front feel sculpted.

EXTERIOR

SAME YARIS, *Levelled Up*

Everything you already loved with brand-new features that make the cabin smarter, more comfortable, and more you than ever before.

Leatherette Console Box

Storage that's within reach, with an armrest because comfort isn't negotiable.

NEW

Black Leatherette Sport Seats

Black leatherette seats with grey stitching. Because the inside deserves just as much attention as the outside.

NEW

4.2-Inch Multi-Information Display (MID)

Start the engine and let the sporty welcome animation get you hyped. It's giving race-car energy from the very first second.

Auto Air-Conditioning

Malaysian heat is no joke. The auto air-conditioning system controls the temperature and airflow so the cabin stays exactly where you want it - cool, comfortable, and dialled in without you having to touch a thing. Get in, cool off, go.

Electrochromic Rear-View Mirror

Less glare. More clarity. The electrochromic rear-view mirror dims excessive light automatically so every night drive feels exactly as it should — clear, comfortable, and in control.

Steering Wheel

Leather-wrapped for a luxurious feel and a comfortable grip on every drive.

INTERIOR

0% WORRIES, 100% Confidence

Ain't nobody got time for stress behind the wheel. The New Yaris gives you a confidence boost so you can focus on enjoying the journey.

Toyota Safety Sense

360-T PLUS

It's all about Trust & Technology by Toyota.

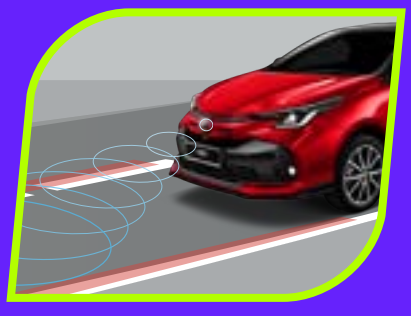

SAFE-T

Technology at your command.

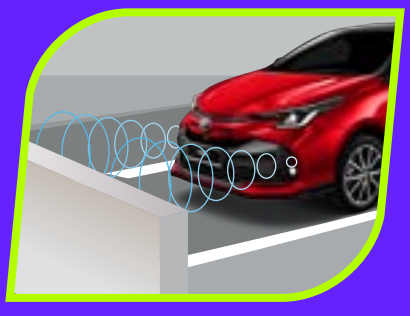

*Pre-Collision System (PCS)**

Sometimes the unexpected happens faster than you can react. The Pre-Collision System is already on it — alerting you the moment a collision risk is detected and may automatically apply the brakes under certain conditions.

*Lane Departure Alert (LDA)**

An unintentional lane departure can happen in a moment. The Lane Departure Alert catches it before it becomes a problem — warning you when you unintentionally drift out of your lane.

Front & Rear Parking Sensors

Parallel parking? Say less! Front and rear parking sensors alert you to nearby obstacles to help make parking easier.

**Driver remains solely responsible at all times for safe driving.*

SAFETY

7 SRS Airbags

Protection that doesn't pick favourites. Seven SRS airbags covering the driver, front passenger, sides, curtain shield, and driver's knee — so in the event of a collision, everyone inside is looked after.

Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA)

The mirrors can only show so much. Blind Spot Monitor and Rear Cross Traffic Alert cover the gaps - detecting vehicles you might miss when changing lanes or reversing so you can move with confidence, not just caution.

3D Panoramic View Monitor (PVM)

Tight parking spot? The 3D Panoramic View Monitor gives you a 360° view around the car so you can see exactly where you are, where the walls are, and where the lines are.

Hill-start Assist Control (HAC)

Inclines don't get to be stressful anymore. Hill-start Assist Control briefly maintains brake pressure to help reduce rollback when moving off on a slope.

360-T PLUS

It's all about Trust & Technology by Toyota.

CONNECTIVI-T

Technology at your command.

NEW

Front & Rear Digital Video Recorders (DVRs)

The 4K front dashcam and Full HD rear dashcam record every drive for clear footage in case of an incident.

Rear DVR is an optional add-on.

SAFETY

360-T PLUS

It's all about Trust & Technology by Toyota.

CONNECTIVI-T

Technology at your command.

Vehicle Telematics System (VTS)

Keep track of your car's location at all times. All it takes is just a tap.

NEW

9-Inch Display Audio with Wireless Apple CarPlay® & Android Auto™

Your phone, your playlist, your route. Connect your smartphone and control navigation and music without ever losing the vibe.

Wireless Charger

Conveniently charge your Qi* standard-compliant devices without the use of a cable.

**International standard for wireless charging developed by the Wireless Power Consortium.*

Rear USB-C Charging Ports

Two rear USB-C ports right at the centre console let you fast-charge your devices. No more "my phone's dying" energy mid-trip. Everyone stays charged, everyone stays happy.

RFID Tag

Toll booths don't get to interrupt the drive. The New Yaris comes with an RFID tag already fitted - because small inconveniences shouldn't be part of the experience.

CONNECTIVITY

ALL ABOUT THE Smooth Moves

Wherever your destination is, make your drive there exciting. The New Yaris is built for pure driving fun - responsive when you push it, smooth when you ease back, and always moving freely.

DUAL VVT-i ENGINE

MAX. OUTPUT	*MAX. TORQUE*
107 PS	**140 Nm**

The 2NR-FE engine doesn't just move the car - it moves it efficiently, powerfully, and without hesitation. The kind of engine that makes every drive feel effortless.

Rear Disc Brake

With smooth and consistent braking performance, the new rear disc brakes give you the confidence and control to keep moving your way.

Continuously Variable Transmission (CVT) with 7-speed Sport Sequential Shiftmatic

Smooth performance with the control of a 7-speed Sport Sequential Shiftmatic mode to keep things flowing so the drive stays enjoyable from start to finish.

Paddle Shifters

Control at your fingertips — literally. Paddle shifters let you shift gears up or down without taking your hands off the steering wheel. Precise, responsive, and perfect for those moments when you need to push past.

Drive Mode Switch

Switch between SPORT, NORMAL, and ECO modes depending on how you want to feel behind the wheel. Push it when you want to, ease back when you need to. The choice is always yours.

PERFORMANCE

SIMPLICITY IS *Superior*

Everything has a place.
Every place has a purpose.
The New Yaris makes convenience feel like second nature.

Spacious Trunk Capacity

Small on the outside.
390L on the inside.
Surprisingly generous where it counts.

60:40 Folding Seats

More cargo. More room. More options. 60:40 folding seats that adapt to whatever the moment calls for.

Glovebox

Keep all your essentials, extras, or anything in between safe and always within arm's reach.

Cup Holders

Your matcha, coffee, or tea - conveniently placed cup holders keep your beverage right where you need it.

CONVENIENCE

CHOOSE *Your Vibe*
